Movie Music, The Film Reader (In Focus: Routledge Film Readers)

Bringing together material from the areas of documentary, fandom and animation, *Movie Music, the Film Reader* comprises an important first collection of writings about film music. It is divided into four sections, each with an introduction by the editor. *Essays in The Meanings of the Score* look at instrumental scores, their production and reception, and questions the onscreen power of the nineteenth century classical genre. *The Place of the Song* turns to popular music, asking how the pop score supports the film narrative. *Formal Politics of Music on Film* considers the subversive power of film music, and in *Crossing Over Into the Narrative* articles address the use of musicians within film narratives, from rockumentaries to pop-stars-as-movie-stars, such as Madonna in *Desperately Seeking Susan*.
