- \* Features a perspective of both developing and industrialized countries
- \* For a wide audience including academics, undergraduate and graduate students, researchers and practitioners

The growing impact of cross-border civil society networks and campaigns on global policy has made transnational civil society an increasingly important phenomenon. *Transnational Civil Society: An Introduction* provides a clear and accessible introduction to the history, characteristics, and achievements of influential transnational civil society networks, coalitions, and movements.

Editors Srilatha Batliwala and L. David Brown provide an in-depth analysis of the forces that have shaped transnational activism: globalism, economic and political power structures, and cross-border organization by non-state actors. Important transnational movements that have shaped our world - labor, environment, human rights, women's rights, peace, and economic justice - are also described and analyzed. The contributors are globally experienced activist-scholars and reflective practitioners discussing both developing and industrialized countries.

For students, practitioners, and activists alike, *Transnational Civil Society: An Introduction* offers comprehensible descriptions of transnational initiatives working toward effective and sustainable solutions to some of the critical challenges facing our world.
