China's Program for Science and Technology Modernization Micah Springut, Stephen Schlaikjer, David Chen

The US-China Economic and Security Review Commission (USCC) contracted CENTRA Technology, Inc. (CENTRA) to provide a report on the scientific modernization program of the People's Republic of China (PRC) and its implications the competitiveness of the United States. The Commission asked CENTRA to 1) examine and assess national-level programs from the 1980s to the present; 2) assess linkages between China's science policy and its industrial policy; 3) assess the methods commonly employed by the PRC to support its scientific modernization through interactions with the United States and other Western entities; and 4) analyze identifiable policy linkages between the Chinese government's broader science and technology efforts and the capacities of China's defense-industrial complex.
