Freedom, God, and Worlds

Michael J. Almeida

Freedom, God, and Worlds Michael J. Almeida

Michael J. Almeida presents a powerful argument which holds that several widely believed and largely undisputed objections to the idea of the existence of God are in fact just philosophical dogmas. He challenges some of the most well-entrenched principles in philosophical theology, which have served as basic assumptions in influential apriori, atheological arguments. But most theists also maintain that the principles express apriori necessary truths, including those principles that are presumed to follow from the nature of an essentially omnipotent, essentially omniscient, essentially perfectly good and necessarily existing being. Among the atheological arguments that deploy these philosophical dogmas are the *Logical Problem of Evil*, the *Logical Problem of the Best Possible World*, the *Logical Problem of Good Enough Worlds*, the *Problem of Divine Freedom*, the *Problem of No Best World*, and the *Evidential Problem of Evil*. In *Freedom, God, and Worlds* Almeida claims that these arguments present no important challenge to the existence of an Anselmian God. Not only are these philosophical principles false, they are necessarily false.
