But They All Come Back: Facing the Challenges of Prisoner Reentry Jeremy Travis

As our justice system has embarked upon one of the greatest social experiments of our time-the expansive use of prisons as our response to crime-we have forgotten the iron law of imprisonment: they all come back. In 2002 alone, more than 630,000 individuals left federal and state prisons-compared with the 150,000 who made a similar journey 30 years ago. Sadly, in the intense political debate over America's punishment policies, the impact of these returning prisoners on families and communities has been largely overlooked. In *But They All Come Back*, Jeremy Travis continues his pioneering work on prisoner reentry. He describes the new realities of punishment in America and explores the nexus of returning prisoners with seven policy domains: public safety, families and children, work, housing, public health, civic identity, and community capacity. Travis proposes a new architecture for our criminal justice system, organized around five principles of reentry, that will encourage change and spur innovation. It is a Herculean synthesis and an invaluable resource for anyone interested in prisoner reentry and social justice
