Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media Bothi Raja

Mild steel (MS) is the material of choice to fabricate various reaction vessels, pipes, tanks etc., in most of the chemical industries due to its easy availability and low cost. Hydrochloric acid and Sulphuric acid are generally used for the removal of undesirable scale and rust in several industrial processes. MS suffers severe corrosion in aggressive media. Many heterocyclic compounds have been proved to be effective inhibitors for the corrosion of metals and alloys in acid media. There has been a growing trend in the recent years to go in for eco-friendly, non-toxic green inhibitors in place of synthetic substances which suffer from many drawbacks. This book discusses the anticorrosion effect of the following alkaloidal plants viz., *Datura metel*, *Datura stramonium*, *Solanum nigrum*, *Solanum tuberosum*, *Piper nigrum*, *Rauvolfia serpentina* and *Strychnos nux-vomica* and their corresponding alkaloid constituents viz., Atropine, Solasodine, Piperine, Reserpine and Brucine against mild steel corrosion in acid media. Further, this study has unearthed another facet of the alkaloids viz., the corrosion inhibition potential as so far only their physiological effects are studied.

From reader reviews:

Scott Ridgway:

In this 21st century, people become competitive in each and every way. By being competitive currently, people have to do something to make these people survive, being in the middle of the particular crowded place and notice by means of surrounding. One thing that sometimes many people have underestimated this for a while is reading. Yep, by reading a publication your ability to survive rises then having a chance to stand than other is high. In your case who want to start reading some sort of book, we give you this specific Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media book as nice and daily reading e-book. Why, because this book is greater than just a book.

Rosa Johnson:

Typically the book Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media has a lot of info on it. So when you read this book you can get a lot of profit. The book was compiled by the very famous author. This author makes some research just before writing this book. This book is very easy to read you can get the point easily after looking over this book.

Kirk Qualls:

In this time of globalization it is important to someone to find information. The information will make someone to understand the condition of the world. The condition of the world makes the information better to share. You can find a lot of sources to get information example: internet, classifieds, book, and soon. You can view that now, a lot of publishers which print many kinds of book. Typically the book that is recommended for your requirements is Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media this publication consists a lot of the information with the condition of this world now. This book was represented how the world has grown up. The vocabulary styles that the writer requires to explain it is easy to understand. Often the writer made some analysis when he makes this book. That's why this book is acceptable all of you.

Ron Taylor:

Beside that Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media in your phone, it may give you a way to get more close to the new knowledge or information. The information and the knowledge you can get here is fresh in the oven so don't always be worried if you feel like an aged person lives in a narrow small town. It is a good thing to have Corrosion Science and Natural Products Chemistry: Natural Products as Green Corrosion Inhibitors for Metals in Corrosive Media because this book offers for your requirements readable information. Do you sometimes have a book but you would not get what it's about. Oh come on, that will happen if you have this with your hand. The enjoyable option here cannot be questionable, including treasuring beautiful island. So do you still want to miss that? Find this book and also read it from at this point!
