Identification and Control of Sheet and Film Processes (Advances in Industrial Control)

Andrew P. Featherstone, Jeremy VanAntwerp, Richard D. Braatz

Identification and Control of Sheet and Film Processes (Advances in Industrial Control) Andrew P. Featherstone, Jeremy VanAntwerp, Richard D. Braatz

Sheet and film processes include coating, papermaking, metal rolling, and polymer film extrusion. Products produced by these processes include paper, bumper stickers, plastic bags, windshield safety glass, and sheet metal. The total capitalization of industries that rely on these processes is well over \$ 500 billion worldwide. These processes are notorious for being difficult to control.

The goal of this book is to present the theoretical background and practical techniques for the identification and control of sheet and film processes. It is explained why many existing industrial control systems perform poorly for sheet and film processes. Identification and control algorithms are described and illustrated which provide consistent and reliable product quality. These algorithms include an experimental design technique that ensures that informative data are collected during input-output experimentation, model identification techniques that produce a process model and an estimate of its accuracy, and control techniques that take into account actuator constraints as well as robustness to model uncertainties.

The algorithms covered in this book are truly the state of the art. Variations on some of the algorithms have been implemented on industrial sheet and film processes. Other algorithms are in various stages of implementation. All of the algorithms have been applied to realistic simulation models constructed from industrial plant data; many of these studies are included in this book.

From reader reviews:

Katherine Sorenson:

Here thing why this kind of Identification and Control of Sheet and Film Processes (Advances in Industrial Control) are different and reliable to be yours. First of all reading through a book is good however it depends in the content of computer which is the content is as yummy as food or not. Identification and Control of Sheet and Film Processes (Advances in Industrial Control) giving you information deeper since different ways, you can find any e-book out there but there is no book that similar with Identification and Control of Sheet and Film Processes (Advances in Industrial Control). It gives you thrill studying journey, its open up your own eyes about the thing that happened in the world which is possibly can be happened around you. You can bring everywhere like in park, café, or even in your means home by train. For anyone who is having difficulties in bringing the printed book maybe the form of Identification and Control of Sheet and Film Processes (Advances in Industrial Control) in e-book can be your substitute.

Dawn Dustin:

Beside this kind of Identification and Control of Sheet and Film Processes (Advances in Industrial Control) in your phone, it might give you a way to get closer to the new knowledge or info. The information and the knowledge you might got here is fresh from your oven so don't be worry if you feel like an old people live in narrow town. It is good thing to have Identification and Control of Sheet and Film Processes (Advances in Industrial Control) because this book offers for your requirements readable information. Do you at times have book but you would not get what it's exactly about. Oh come on, that wil happen if you have this in your hand. The Enjoyable blend here cannot be questionable, similar to treasuring beautiful island. Techniques you still want to miss the idea? Find this book as well as read it from now!

Fernande Hairston:

With this era which is the greater particular person or who has ability to do something more are more important than other. Do you want to become considered one of it? It is just simple approach to have that. What you must do is just spending your time not very much but quite enough to possess a look at some books. One of the books in the top listing in your reading list is definitely Identification and Control of Sheet and Film Processes (Advances in Industrial Control). This book that is certainly qualified as The Hungry Inclines can get you closer in getting precious person. By looking upwards and review this reserve you can get many advantages.

Virginia Laird:

As we know that book is vital thing to add our understanding for everything. By a book we can know everything you want. A book is a range of written, printed, illustrated or even blank sheet. Every year ended up being exactly added. This publication Identification and Control of Sheet and Film Processes (Advances in Industrial Control) was filled in relation to science. Spend your free time to add your knowledge about

your technology competence. Some people has different feel when they reading a book. If you know how big benefit from a book, you can experience enjoy to read a publication. In the modern era like currently, many ways to get book that you wanted.
