PNF in Practice: An Illustrated Guide Susan Adler, Dominiek Beckers, Math Buck

PNF (Proprioceptive Neuromuscular Facilitation) is an approach to therapeutic exercise which therapists all over the world have found effective for treating patients with a wide range of diagnoses. The approach presented in this richly illustrated guide is based on the concepts set out by Dr. Herman Kabat and taught by Margaret Knott.

This edition demonstrates how the principles of the International Classification of Functioning, Disability and Health (ICF) and aspects of motor learning and motor control are applied in modern PNF evaluation and treatment. This textbook provides a systematic and easily accessible guide to learning and understanding PNF.
