The War of the Worlds (Illustrated) H. G. Wells

The War of the Worlds is a science fiction novel by English author H. G. Wells. It is the first-person narrative of an unnamed protagonist in Surrey and that of his younger brother in London as Earth is invaded by Martians. It is one of the earliest stories that detail a conflict between mankind and an extraterrestrial race. The novel is one of the most commented-on works in the science fiction canon.

The War of the Worlds has two parts, Book One: The Coming of the Martians and Book Two: The Earth under the Martians. The unnamed narrator, a philosophically inclined author, struggles to return to his wife while seeing the Martians lay waste to the southern country outside London. Book One also imparts the experience of his brother, also unnamed, who describes events as they deteriorate in the capital, forcing him to escape the Martian onslaught by boarding a paddle steamer near Tillingham, on the Essex coast.

The War of the Worlds has been both popular (having never gone out of print) and influential, spawning half a dozen feature films, radio dramas, a record album, various comic book adaptations, a television series, and sequels or parallel stories by other authors. It has even influenced the work of scientists, notably Robert Hutchings Goddard.

This edition contains 20+ original illustrations by Alvim Corrêa.
