Virtuality and Virtualization: Proceedings of the International Federation of Information Processing Working Groups 8.2 on Information Systems and ... in Information and Communication Technology)

This book begins with consideration of possible frameworks for understanding virtuality and virtualization. It includes papers that consider ways of analyzing virtual work in terms of work processes. It examines group processes within virtual teams, focusing in particular on leadership and group identity, as well as the role of knowledge in virtual settings and other implications of the role of fiction in structuring virtuality.
