Statistics

Robert S. Witte, John S. Witte

Statistics Robert S. Witte, John S. Witte

This Seventh Edition explains in plain English the basic concepts and procedures of statistical analysis and makes a special effort to clarify such topics as the standard deviation, variance interpretation of the correlation coefficient, hypothesis tests, degrees of freedom, p-values, and estimates of effect size.

* Highly interesting and engaging exercises include how standard scores might explain the disappearance of .400 hitters in Major League Baseball, probability calculations that recreate the chillingly high likelihood of the space shuttle Challenger disaster, and a chi-square test of the survival rates of cabin and steerage passengers aboard the Titanic.

* Avoids unnecessary math, computational busy work, and subtle technical distinctions, without sacrificing either accuracy or realism.

* Each chapter begins with an overview and ends with a summary, a list of important terms, and numerous exercises.

From reader reviews:

Doris Williams:

Have you spare time for any day? What do you do when you have far more or little spare time? That's why, you can choose the suitable activity to get spend your time. Any person spent their own spare time to take a wander, shopping, or went to the actual Mall. How about open or read a book titled Statistics? Maybe it is for being best activity for you. You know beside you can spend your time together with your favorite's book, you can wiser than before. Do you agree with it is opinion or you have additional opinion?

Kevin Strickland:

People live in this new day time of lifestyle always aim to and must have the time or they will get wide range of stress from both day to day life and work. So , if we ask do people have free time, we will say absolutely without a doubt. People is human not really a huge robot. Then we request again, what kind of activity do you possess when the spare time coming to an individual of course your answer can unlimited right. Then do you try this one, reading publications. It can be your alternative inside spending your spare time, the book you have read is usually Statistics.

Tanya Nolan:

Are you kind of busy person, only have 10 or even 15 minute in your day to upgrading your mind talent or thinking skill possibly analytical thinking? Then you are experiencing problem with the book than can satisfy your short space of time to read it because this time you only find reserve that need more time to be read. Statistics can be your answer since it can be read by anyone who have those short spare time problems.

Homer Holmes:

Reading a publication make you to get more knowledge from the jawhorse. You can take knowledge and information from the book. Book is prepared or printed or descriptive from each source this filled update of news. In this modern era like currently, many ways to get information are available for anyone. From media social just like newspaper, magazines, science publication, encyclopedia, reference book, book and comic. You can add your understanding by that book. Are you hip to spend your spare time to spread out your book? Or just trying to find the Statistics when you necessary it?
